**EXAMINER'S AMENDMENT And REASONS FOR ALLOWANCE**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Pereira on March 5, 2004.

The application has been amended as follows:

In claim 39, line 5, delete "said modified lysosomal hydrolase" and insert therefor --said lysosomal hydrolase--.

The following is an examiner's statement of reasons for allowance:

After carefully considering the 132 declarations of Canfield and Kornfield, it was concluded that the antibodies used to purify the two enzymes would have been difficult to isolate and would have required more than routine experimentation. The Kornfield group had tried unsuccessfully to purify these enzymes for over 15 years. The two specific antibodies are disclosed in the instant application and were deposited. The references cited apparently do not give one of ordinary skill in the art possession of the two antibodies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 703-308-4242. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
